67-22517	F-104G	8230	(2480)	transfer to ROCAF	ROCAF 4400, display Xihu town, Changhua county.

notes:

German serial:

All German F-104 in service in the USA got a German "shadow" serial number

Example: F-104G construction number 2035, US serial number 63-13251 got a "shadow" serial number 2028, but it was never used or seen on the aircraft! The aircraft was coded as 13251 in the USA. The "shadow" serial number is shown in brackets like: (2028).

All German F-104 already out of service in the USA at that date did not get a serial number, of course.

Example: F-104G construction number 2032, US serial number 63-13248, crashed 1965 coded as 13248.

A total of 110 Starfighter were operated during the 20 years of training.

42 F-104 were lost during 20 years of training (+ 1 MAP aircraft loss), 22 pilots were killed.

MAP aircraft was 62-12312 lost on April 16, 1965
